MEMORANDUM FOR: Mr. Wisner, DD/P

At the NSC meeting today the question was raised by Harold Stassen as to whether he should stop FOA aid and withdraw his FOA personnel from Guatemala. There was also some discussion with regard to the Military Mission in Guatemala and the Secretary of State explained the reasons for retaining the Mission for the time being. He said he thought that the same applied for the Economic Mission, but suggested that Mr. Stassen and the DCI confer on that subject and possibly bring in a recommendation with regard to the best method of handling the FOA Mission. This was generally agreed to.

Please let me have your recommendations.
